

Would you like your child to learn to sing?

Whether they are already playing instruments to a high standard or just love singing around the house, we welcome all children from 7 years old upwards to consider joining the choir. The choral activities are tailored to the specific needs of the children and their involvement increases as they grow in confidence and ability.

At St Luke's we are committed to nurturing a love of music and singing in children of all ages and backgrounds. Children love singing, and there is nothing better than to be doing it in a supportive environment surrounded by friends. The choristers sing at least once a month for the church's Sunday morning Family Mass, as well as other special services throughout the year.

As well as the opportunity to sing at services with and without the adult choir, we provide musical training that will complement and extend their musical education at home and at school. With his background in professional singing, the Director of Music can offer choristers specialist vocal training that will nurture their voices at the start of their singing careers.

Friends are made easily within the choir and there are parties and social trips for the juniors on a regular basis.

Thursday rehearsals

4.00 pm Choir club opens
